Consistency of Implementation: An Advanced Workshop on Evidence Based Strategies Used in the STAR® Program (Arick, Loos, Falco and Krug 2015)

Presented by: Brenda Hancock and OrPATS Staff

About this event:

Participants will receive consistency of implementation training on the following instructional strategies: teaching functional routines, pivotal response training, discrete trial training and the use of positive behavior intervention and supports as used in the STAR Program. Initial and on-going assessment of student skills using the STAR Student Learning Profile will also be addressed. This workshop will include a brief review of improvements and updates to lesson plans, procedures, and forms in version 2 of the curriculum (examples of Version 2 data forms will be provided). We will also summarize the results of recently published research on the effects of comprehensive treatment models (CTMs) for children with ASD. Workshop materials and content will be appropriate for users of version 1 and 2 of the STAR curriculum.

Intended audience:

This workshop is designed for pre-school, elementary, or middle school staff currently implementing evidence-based practices using the STAR curriculum with students. **Participants should have already attended a two day workshop on the STAR Program or have had extensive experience implementing the program.**

Where: Cook Memorial Library
2006 Fourth St.
La Grande, OR 97850

When: March 5, 2018 (8:30-3:30)
