

Supporting Children with Autism and Other Developmental Delays in Early Childhood Education Settings

Presented by Brenda Hancock, OrPATS (Oregon Program Autism Training Sites & Support) Trainer

This training opportunity will provide preschool staff, child care staff, and head start staff with a greater understanding of working with children with autism spectrum disorders enrolled at their program. Topics discussed will include learning characteristics, functional routines and simple activities to encourage social and language skill development. This workshop will provide specific examples of evidence-based practices that can be implemented immediately in the child care setting.

Who Should Attend:

Child care center providers, Head Start staff, registered family child care providers, certified family child care providers, teachers, assistants and other staff providing services to children with Autism Spectrum Disorders.

What You Will Learn:

- The characteristics of children with autism
- Evidence-based strategies for working with children with autism and other developmental delays
- Practical instructional supports to improve social and language skill development
- Visual supports that can be used to immediately support children with a preschool or childcare setting.

What You Will Receive:

- Examples of visual supports, behavior supports and social supports
- Certificate of participation for 3 hours upon completion of the session

Where: Blue Mountain Community College 2411 NW Carden Ave. Pendleton, OR 97801

When: Saturday, April 7, 2018; 8:30am to 11:30pm

Register by completing form provided: See separate attachment.

This training is registered with ORO through Child Care Resource & Referral and hours may be counted for training credits.

Persons with disabilities or who are in need of additional accommodations or a language interpreter in order to attend should contact Child Care Resources and Referral/UMCHS at crr@umchs.org
