A Program of Community Action

Developing Early Childhood Education Settings to Support Students with Autism and Other Developmental Delays

Presented by Oregon Program for Autism Training Sites & Support (OrPATS)

This training provides early childhood education staff with the knowledge to develop classrooms that support children with autism through the implementation of research-based strategies. Topics include: examining the learning characteristics of autism, positive behavioral strategies, and techniques to promote social and language skills. This workshop provides examples of evidence-based practices that can be immediately implemented in classrooms.

Who Should Attend:

Preschool, childcare, and relief nursery staff providing services to children with Autism Spectrum Disorders (ASD).

What You Will Learn:

- The learning characteristics of children with autism
- Evidence-based strategies for working with children with autism and other developmental delays
- Practical instructional supports to improve social and language skill development
- Activities, behavioral supports, and visual supports that can be used to immediately support children within a preschool or childcare setting

What You Will Receive:

- Online access to examples of visual supports, behavior supports, and social supports
- Access to additional on-line training modules and Media Center
- Certificate of participation for 6 hours upon completion of the session
